

# Unknown Ledger, 1925-1926

---

**Owner:** Unknown: most likely an owner of a hardware store or supply company.

**Dates:** August 11th 1925- September 1926

**Items listed as sold:**

This ledger primarily records the sale of hardware and farming supplies including blades, bulbs, batteries, nails, bolts, wrenches, oil, gas, tractor oil, shovels, locks, farming supplies, toilet paper, smoking pipes, tea pots, pieces of glass, gloves, and a Chevrolet truck.

**Historical Information:**

The ledger was a gift to Scottsville Museum by Mr. and Mrs. Jesse Grove in September of 1991. This business ledger records interactions and sales with farms, power plant companies, and farming estates in the Virginia region. This ledger records numerous business exchanges with hardware stores located within Virginia and one in North Carolina. Listed hardware store names include: Charlottesville Hardware Company, Hardware Share Company, Hardware Stove Company, Sclater Hardware Company, Scottsville Hardware Company, Smith McKinney, Hardware Company (Clifton Forge, Virginia), and Winston Salem Hardware Company.

During the 1920s, the town of Scottsville experienced growth and change due to the events of WWI. The automobile rose to technological stardom and affected the fabric of small towns and cities across America. The construction of Route 6 and Route 20, running east-west and north-south respectively, connected Scottsville to other Virginia towns and cities (Ref: Goldstone, p.62).
